## Regarding future classes

Dear Parent/Guardian,

We, the SVPS family appreciate the support and cooperation of all parents/guardians in mitigating effects of the outbreak of COVID-19 pandemic. It is now clear that the interruption in normal functioning of schools due to lockdown imposed to contain this disease will continue for some more time in near future. As it is a well-researched fact that the protracted suspension of schooling not only disrupts continuous growth of students, but also causes a rapid loss of previous knowledge and skills gained earlier, it is, thus, imperative that all schools are engaged with students through online means to maintain their rhythm of learning. In this regard, we appreciate your cooperation and would like to thank all of you once again for your wholehearted support to our Online and Live classes and study material made available to the students of our school through the school's official Website and whatsapp groups. Let us be optimistic and hope for a better future.
