MESSAGE

Dear Students,

Cleanliness is a very significant topic and has a vast meaning in its own. It is very necessary for everyone to understand the importance of cleanliness and maintain it forever to continue a healthy and peaceful life. Cleanliness is not only means about the cleanliness of body, it means about the cleanliness everywhere - cleanliness of body, mind, soul, home, surrounding, environment, river, and whole planet.

- Time has come when you need to step up and help your own country. We all have been waiting for this opportunity for the longest time and now it is here. Let us make a common, attainable goal, like – The street should not have even a single plastic waste; the garbage should be cleared out daily by the municipality people; delegate the responsibilities and just don't settle for anything less than perfect. Keep a check and involve other people of the society as well.
- Start doing your bit, educate your domestic help and workers in and around your housing colony. Go to small villages which are closer to where you put up and explain to them how important it is to use a toilet for them and for the rest of us. Tell them that they are polluting the environment and you are getting affected too.
- The moment you see someone littering or polluting the environment, go up to them, talk to them in the politest of manner, explaining why you seem so bothered about the environment, throwing in some major health risks and other problems which might occur due to pollution can be of some help too.

Well, I am sure I don't need to explain how a clean environment will benefit all of us, if we all are working towards a common goal, we can ensure that the objective is met by 2022 or even before that. The youth can carry forward this Abhiyan as a regular project and pass it on to the generations to come because we want this initiative to last forever.

Swachh Bharat can become way bigger if only we give it a chance to become big. We need to be an active part of the campaign for it to become effective on a nation-wide level. We are the nation and like Mahatma Gandhi rightly said,

WE SHOULD BE THE CHANGE WE WISH TO SEE IN THE SOCIETY

JAI HIND!
