

ST VIVEKANAND PUBLIC SCHOOL, SADABAD

Circular No. 01/2022-23

Date: 06 Jan, 2022

Dear Parent,

"Is it possible to realistically envision education emerging from the novel coronavirus pandemic stronger than it was before?"

- The educational scenario for the students has been the most unpredictable, since the Covid 19 pandemic set in. Students have been really hard hit by the lockdown and limited social interaction; while they may have mastered the art of attending online classes and developed skills for online interactions, assessments but many of them are battling social exclusion and mental trauma.
- As we forge ahead into 2022, the future is still unknown. If at all, we are hit by the third wave of Covid, our students of Classes X and XII will be left with almost no time to prepare for the Board exams and the Competitive exams that they contemplate taking this year. We envisage that our children should become lifelong learners and develop the full breadth of skills and competencies—from literacy to problem-solving to collaboration.
- Though our children have leapfrogged and kept pace with the emerging challenges, some of them have seen opportunities for growth and developed new skill sets to widen their horizons. Kudos!!!
- However, for majority of the students the going has been tough, there are learning gaps which may be really difficult to bridge and may also adversely impact the employability of the students in the future.
- We at **ST VIVEKANAND PUBLIC SCHOOL SADABAD** are seriously laying out a map to harness innovative approaches to quickly close the gap in education by smart use of technology and data. **Students of classes I to VIII will attend online classes from 7th January to 15th January 2022 in compliance with the government orders.** The timetable for online classes will be shared by the Class teachers through Broadcast groups. We sincerely urge our parents to be our partners in this endeavour and ensure that the children attend online classes in the earnest and likewise attempt all tests and assignments for their own growth and not use unfair means to score good marks. The schedule for Classes after **15th Jan 22** will be communicated on having more clarity on the emerging Covid scenario from U.P Government.
- Further, we would also like to remind our parents that the government has rolled out the Vaccination programme for children born between 2004-2007 from 7th January 2022, The vaccinations are being provided free of cost and is easily available.
- All vaccinated students (IX-XII) must share their first vaccination certificate to their respective class teachers by 15 Jan 2022.

Stay safe, Stay Happy and Stay Healthy!!!
